

Creating Your First Squeeze Page

- Open your NVU HTML editor
- Enter your headline and format it as you would in a word processor
- Enter 3 – 5 bullet points, describing the benefits of your offer
- Get in touch with the source code (tab at the bottom of the NVU screen) and just see what it looks like.

This is where you'll be installing the autoresponder code, which we'll show you how to do in another video.
